DETAILED ACTION

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable for at least reciting the step of: "determining the Raman gain of the Raman amplifying medium from the two extracted index values and the modulation factor..."

Claims 2-6 are derived from claim 1.

The computing unit to determine Raman gain of the Raman amplifying medium from the two index values detected by the index detector, and the modulation factor is novel when taken in the complete context of claim 7.

Claims 8-17 are derived from claim 7.

The following step is not taught within the context of claim 18, when taken as a whole: "determining the Raman gain of the Raman amplifying medium according to the first and second extracted index values and the modulation factor".

Claims 19 and 20 are derived from claim 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Mark Hellner at telephone number 571 272 6981.
